

DOUBLE ANGEL FOUNDATION

The 13th Annual Double Angel Golf Classic is coming!

MONDAY, JULY 30, 2012, THE CLUB AT PRADERA, PARKER - 9:00 AM SHOTGUN

The success of the Double Angel Golf Classic has kept Double Angel in operation. Through the generosity of **community businesses**, the Double Angel Foundation, a non-profit, will continue to focus on providing scholarships to worthy ballplayers in need and (4) HS scholarships to college bound seniors in Parker, to grow the sport of baseball, and will work to spread the message of the dangers of carbon monoxide in boats as well as in homes and buildings. The foundation was formed by Ken and Bambi Dixey in 2000, following the deaths of their two baseball-loving sons, Dillon and Logan, who drowned after being exposed to carbon monoxide while swimming off the back of a houseboat while on vacation at Lake Powell. The Double Angel Ballpark, a baseball facility built by the Foundation in memory of the boys, opened in 2006. The Double Angel Baseball Club took over operations and management of the park in 2010. The youth teams serve as Double Angel ambassadors, and the leaders of Double Angel Baseball, with their integrity, knowledge of the sport and enthusiasm, will take the park to the next level and beyond. We know the economic challenges faced by area businesses and organizations, and non-profits struggle equally. **We hope you will consider supporting our 13th Annual Double Angel Golf Classic with a Sponsorship, Donation or perhaps joining us for a day of golf. Your support, at any level, is vital to our future operations and we thank you for participating in this event.**
